

SPECIFICATIONS

AccuSeed™ Nutrient Grade Sulphur (90% S) Granular Fertilizer

PRODUCT DESCRIPTION

Seeding technology has advanced with the dawn of **AccuSeed™ Nutrient Grade Sulphur**. AccuSeed Nutrient Grade Sulphur technology allows the grower to more accurately plant canola and other small seeded crops.

AccuSeed Nutrient Grade Sulphur consists of uniform, degradable elemental sulphur pastilles. **AccuSeed Nutrient Grade Sulphur** is safe to use and will not damage emerging crops. (i.e. very low salt index). Tiger-Sul Products recommends additional sulphur be used in conjunction with **AccuSeed Nutrient Grade Sulphur** to ensure proper sulphur fertility. Consult your local **Tiger-Sul** account manager, or a professional crop advisor or local university extension professional for a recommended fertility program if required.

GUARANTEED ANALYSIS:	90% Sulphur		
PHYSICAL PROPERTIES			
Color:	Greenish Tan Pastilles		
Fertilizer Granule Size:	240 SGN		
Angle of Repose:	29°		
Breakage Tests (% Fines Produced):	<5%		
Impact (SLI):	0.9%		
Abrasion (SLII):	0.07%		
Bulk Density:	71 lbs/ft ³		
Package Sizing:	Canada (Irricana Facility)		USA (Atmore Facility)
	25 kg bags	1000 kg MBB	50 lbs. bags
	Bulk Truck		Bulk Truck
			2000 lbs. MBB
			Bulk Rail

AccuSeed™ Nutrient Grade Sulphur

GENERAL APPLICATION AND USE RECOMMENDATIONS

AccuSeed™ Nutrient Grade Sulphur can be blended with most small seeds for seed bulking requirements. Conduct a small scale test if unsure of compatibility of small seed source. Always maintain optimum plant stand populations.

Canola:

Apply 10 - 15 lbs (4.54 - 6.8 kg) AccuSeed with 4 to 6 lbs (1.81 - 2.72 kg) Canola per acre to achieve optimum plant stand per acre.

Note: Always test on a small scale if small seed crops are compatible with **AccuSeed Nutrient Grade Sulphur**. Extremely small seeds may settle out.

HANDLING AND STORAGE

AccuSeed Nutrient Grade Sulphur will blend and store well with other granular fertilizer products. Accepted blending and handling procedures should be followed when using **AccuSeed Nutrient Grade Sulphur**. Good housekeeping is necessary when handling sulphur products. **Tiger-Sul Products** uses a special anti-dust agent to minimize air borne dust. Always use stringent dust control procedures to prevent concentrated flammable dusts from reaching a spark or flame source. Sulphur materials should not be blended and stored with strong oxidizing agents such as ammonium nitrate. Avoid extensive use of augers due to fracturing of the product.

FIRST AID

Skin Contact: Wash with mild soap and water.

Eyes: Remove contact lenses if applicable. Irrigate thoroughly with copious quantities of plain water. If irritation persists, seek medical attention. Do not use Boric Acid.

Ingestion: Irritation may occur, seek medical attention.

Inhalation: Sulphur dust may irritate the mucous membranes of the respiratory passages. Move individual to fresh air environment and seek medical attention.
